Pride Professionals was founded in 2019 to empower LGBTQ+ professionals and support them in reaching their career and personal aspirations and goals.

The LGBTQ+ Mentoring Program Aims

The **Pride Professionals** LGBTQ+ Mentoring Program is the first of its kind and was created in response to an identified demand to provide formal mentoring for individuals with diverse genders and/or sexualities.

Our programs provide a structured and sustainable mentoring process that supports LGBTQ+ identifying mentees with career guidance and direction, and their personal growth.

Support Development

To provide a supportive network for personal and professional development. This is achieved through creating opportunities for LGBTQ+ professionals to network with each other and foster an embracing culture for all mentees regardless of their role, seniority, or industry.

Industry Engagement

To engage industry through program participation and sponsorship, and assist organisations, regardless of their size, to better understand the benefits of inclusion and diversity. We do this through open and honest conversations, the reverse mentoring process, and by demonstrating the commercial, reputational, and most importantly people value of investing in I&D.

Mentor Spotlight

We have been fortunate to have an incredibly high calibre of mentors since our inaugural program in 2019. Our mentees are in great hands with the amazing and experienced high-level executives and senior leaders who volunteer their time to participate in the program. Many choose to stay involved in the programs and mentor year after year!

Past Program Testimonials

"AngloGold Ashanti was proud to sponsor the 2019 pilot of the Pride Professionals LGBT+ Mentoring Program. The timing coincided perfectly with the launch of our Diversity & Inclusion work, and we were fortunate that one of our D&I Committee members was accepted onto the mentoring program. Through her involvement in the program, we were able to take positive steps forward in building awareness within AngloGold and generate some great ideas for everyone in the business to show their support for our LGBT+ colleagues."

"The LGBTQ+ Mentoring program had a profound impact on both my mentee and me. Being specifically designed for people in the LGBTQ+ community, the program provided opportunities to talk openly in a safe environment. I loved giving back to my community and being part of my mentee realising his potential".

"I'm so grateful for having the pleasure to take part in the Pride Professionals mentoring program. Everyone who was involved, was so friendly, inclusive and supportive. The pairing with my mentor was spot on, and I received great advice on my career and worked towards my own professional development".

"I have found the Pride Professionals mentoring program to be a very rewarding experience. The effort taken to match mentors and mentees was very evident and I felt an immediate connection. A very well managed and supported initiative".

"The program filled a void in the corporate and professional LGBTQ+ space. This program has been a wonderful experience to bring together some fantastic professionals with one common vision of creating safe and inclusive workplaces. I hope this program is supported by industry to continue to build the strong network needed in the LGBTQ+ space."
